## Technical specifications

Automatic sanding machine for turned pieces. It is fitted with 2 axis with sanding belts controlled by CNC and 2 sets of adjustable oscillating sanding brushes, suitable for sanding pieces with a maximum length of 1500mm, max. diameter 170mm and 120x120mm maximum square.

## Details

- The course and fine belts are used for sanding the simple contours of the turning.
- There are six stations with a rotating drums and the machining process goes through the following stages:
  - Turned piece is loaded from hopper and clamped
  - Course profile sanding with belt
  - Fine profile sanding with belt
  - Course brush back sanding
  - Fine brush back sanding
  - Ejection of sanded piece.
- The adjustable oscillating and stroking brushes are used for sanding the more complicated sections of the turnings.
- The machine will sand:
  - On either the forward or the return stroke only
  - Both in the forward and return strokes.

### Safety

Machine complies with CE standards to guarantee highest operator safety.

### Decibel

The total noise of the plants is less than 85 decibels.

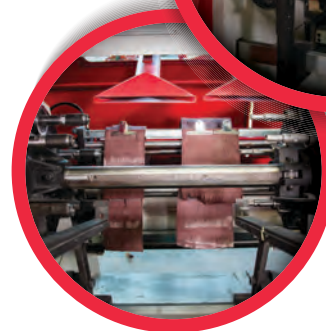

### Weight

Weight Kgs.3890

## Excellence policy

Deep knowledge of detailed customer needs is a true passion at Locatelli Macchine, empowering Research and Development efforts in the design of high performance, versatile machines, which are extremely reliable and easy to use. In order to meet all regulatory standards and to ensure maximum quality of processing, only components which satisfy the highest market standards are taken into consideration for Locatelli Macchine products. Our technical assistance service provides an immediate response to technical inquiries arising from our wide range of international customers.

## Technical specifications

Fully automatic LOCATELLI sanding machine with CNC Control with touch screen for high quality sanding of all round components till a maximum length of 1500mm and a maximum diameter of 170mm like chairs legs, tables legs, stair components, baseball bats and many others.

Maximum length of the products	1500mm
Square wooden stocks sections	from 20x20mm up to 120x120mm
Maximum sanding diameter	170mm
Spindle motor with inverter	4,5 / 3 Hp
Sanding belts motors	1,5 Hp
Total power installed	4 Kw
Overall noise	less than 85 decibels
Machine weight	3890 Kg
